About SIGMA

As a renowned system house group, the SIGMA Group acts as a system integrator and partner of renowned providers in the IT sector. The more than 80 employees of the group form a competent team at the locations Chemnitz and Dresden. With know-how, competence and more than 30 years of experience we offer our customers reliable and powerful IT solutions. The group has ERP experience since 1993, and SIGMA Software und Consulting GmbH has maintained an intensive partnership with SAP in the area of mid-market solutions since 2007. All of our consultants, developers and sales staff are certified by SAP and regularly undergo further training. We love SAP Business One!

About InceptForm

InceptForm GmbH specializes in the production of customer-specific sheet metal segments for various industrial sectors. The company provides its customers with comprehensive support, from the initial idea to the ready-to-install sheet metal part. Its core competencies range from development, laser cutting, punching, bending and welding to final surface treatment.

With SAP Business One, InceptForm relies on a future-oriented ERP solution

www.inceptform.de

SAP Business One convinces in the shortest time

With the introduction of SAP Business One, InceptForm is establishing a centralized system to eliminate the need for separate isolated solutions in the future. SAP Business One won over the metal construction company in a very short time thanks to numerous powerful features, such as the service module and the DATEV interface. The decision in favor of SAP Business One was made quickly and only two weeks passed from the initial meeting to the commissioning of the implementation.

SAP Business One as a future-proof solution with regional partner SIGMA Software and Consulting

When choosing an ERP system, the company was primarily looking for a proven solution that would continue to evolve. SAP Business One meets this requirement - a system that not only guarantees efficient workflows, but is also future-proof. For the Zwickau-based company, the partnership with a regional company, which it found in SIGMA Software und Consulting GmbH, was also important.

SIGMA BDE terminal for transparent production

InceptForm also decided to integrate the SIGMA BDE Terminal add-on, which provides a paperless overview of all production-relevant operating data and thus ensures greater transparency in the production process.

The implementation of SAP Business One at InceptForm not only reflects current requirements, but also creates the basis for future developments. In the near future, shift planning and personnel time recording will also be seamlessly integrated into the system.

We would like to thank InceptForm GmbH for the trust they have placed in us and look forward to accompanying the company on its future path.
