

SIGMA

... is an experienced computer retailer and offers a wide-ranging spectrum of professional services around Information Technology, management and organisation since 1990. Therefore SIGMA operates as an independent company with 45 employees and realizes about 5 million Euro per year. Main focus is the consulting, software implementation and support, program development and -customization, as well as maintenance and service.

Infor & SSA

Infor, one of the leading manufacturer of company software for the manufacturing industry and the wholesale, has taken over SSA Global in August 2006. Infor- as well as SSA Global-clients will profit from the advantages of a larger company, that is positioned worldwide. It includes continuous innovations, applied business solutions, perfected functionality and an incomparable customer service and -support.

Since more than 20 years, SSA-Global™ provides medium-sized companies with advanced software solutions for the Enterprise Resource Planning (ERP). With more than 8.100 employees in subsidiaries in 100 countries worldwide, Infor provides enterprise solutions for over 70.000 clients.

Competency profile

SSA®ERP - Software ▶ *Good planning is half the manufacturing*

Technical qualification:

Our consulting team consists of experienced software specialists, logisticians and business economists, which provide a balanced, individual consulting and adequate methodical and technical support.

University studies and long-standing project experiences of our employees form the basis for effective organisation solutions state-of-the-art, which create a high investment safeness. Because of our independence we can judge the market offer objectively and can integrate the best products in the individual client solution in each case.

For the protection of quality compatible services of our house we adhere strictly to a quality management system and are TÜV-certified since 1996 according to DIN ISO 9001:2000.

Qualifications/Project experiences:

- SSA®Baan IV
- SSA®Baan ERP 5
- SSA®ERP LN
- SSA®PLM
