### About SIGMA

As a reputable system house in Saxony SIGMA Chemnitz GmbH operates as system integrator and partner of well-known Providers in the IT sector. Our over 80 employees at the Chemnitz and Dresden sites form a competent team at the location Chemnitz. With expertise, competence and almost 30 years of experience we offer our customers reliable and powerful solutions.

### About Diagnosticum

As a regional partner for all areas of laboratory medicine, microbiology and pathology, the company, which is based in Neukirchen/Erzgebirge, employs more than 500 staff at 13 locations and supplies more than 1,000 doctors in private practice and inpatient facilities with 2,900 beds.

## Rollout of 90 new printers

# Diagnosticum

- Labormedizin
- Mikrobiologie
- Pathologie
- Humangenetik

### Background

Diagnosticum is expanding its range of services to include the option of electronic laboratory requests. This online-based data transmission is a big step on the way to a paperless medical practice and facilitates the practice's internal workflows enormously. The introduction of this technology in the medical practices requires the purchase of a total of 90 new label printers.

### About the order

Due to the good experiences so far, the Zebra ZD410 ultra-compact model, which was specially designed for confined spaces, was chosen again. The printer features very high print quality and a wide range of connectivity options and is to be used for labelling and thus tracking laboratory tests.

With its headquarters in the foothills of the Ore Mountains, Diagnosticum ultimately made a conscious decision in favour of SIGMA, a competent supplier from the region.

## *This is what our customer says...*

*„SIGMA Chemnitz GmbH convinced us with their expertise as well as the proximity to our headquarters in Neukirchen. We are very much looking forward to the new label printers from Zebra.“*

*Rico Lehmann, Deputy IT Manager of Diagnosticum*
