Modernization of IT and new backup concept

 www.autohaus-melzer.de

About SIGMA

As a reputable system house in Saxony SIGMA Chemnitz GmbH operates as system integrator and partner of well-known Providers in the IT sector. Our over 80 employees at the Chemnitz and Dresden sites form a competent team at the location Chemnitz. With expertise, competence and over 30 years of experience we offer our customers reliable and powerful solutions.

About the client

Autohaus Melzer e.K. is known as a renowned Skoda dealer far beyond the borders of the city of Chemnitz. At two locations in the south of the city (Gewerbegebiet Erlenwald and Annaberger Straße), the company not only offers a full range of new and used Skoda vehicles, but is also available to customers with services, maintenance and servicing.

About the company

Autohaus Melzer e.K. is a renowned authorized Skoda dealer known far beyond the city of Chemnitz. At two locations in the south of the city (industrial area Am Erlenwald and Annaberger Straße), the company offers not only new and used Skoda vehicles, but is also available to customers for support, maintenance and customer service.

About the project

In the first step, an availability and backup concept was implemented with a new PRIMERGY RX300 server from Fujitsu with internal disks.

Great importance was attached to future scalability, for example through storage. The new server runs with Hyper so that the IT landscape can be virtualized without any problems. Data exchange with the second location is now problem-free with the help of a terminal service.

With the help of VEEAM backup software, a modern and secure backup concept is implemented. In addition, the data is redundantly backed up at the second location. The migration of the domain server was also carried out and a modern exchange server was installed. The archiving is done by using the mail archiving solution from Reddoxx. A smartphone integration allows the employees to access emails, data and archives mobile and location-independent. The entire modernization project was implemented within the existing budget and within the planned time frame of three months.

This is what our customer says...

„SIGMA Chemnitz GmbH provided us with competent advice, that's why we decided for the company.

The physical proximity is only a small positive side effect. It was much more important that we are now better and more modern with our IT so that we are prepared for the following years. This means that we can continue concentrating on our core business.“

Christian Melzer, owner of Autohaus Melzer e.K.
