## About SIGMA

As a reputable system house in Saxony SIGMA Chemnitz GmbH operates as system integrator and partner of well-known Providers in the IT sector. Our over 80 employees at the Chemnitz and Dresden sites form a competent team at the location Chemnitz. With expertise, competence and over 30 years of experience we offer our customers reliable and powerful solutions.

## Über die HYGIENE Oederan Produktionsgesellschaft mbH

The Oederan-based company was founded in 1993 and specializes in the complete range of modern feminine hygiene products. The produced articles are delivered as manufacturer brands and as private labels for international brand companies.

## IT high availability for HYGIENE Oederan

[www.hygiene-oederan.de](http://www.hygiene-oederan.de)

### Initial situation

The historically grown production network of the regional manufacturer of hygiene products no longer met the current company requirements. For this reason, a new IT concept was unavoidable.

### Challenges and implementation

Together with certified technicians from SIGMA Chemnitz, the growing requirements were recorded and various technologies and availability approaches were simulated, tested and compared.

Based on this selection process, an all flash storage cluster including 3 hypervisor servers could be defined as the target system. The IT high availability solution as well as the SAN & LAN network modernization were integrated at the beginning of 2021 by SIGMA Chemnitz in close cooperation with the IT administrator of HYGIENE Oederan Produktionsgesellschaft mbH.

Fujitsu ETERNUS Storage AF 250 S3

## This is what our customer says...

*„Thanks to the test scenarios carried out in collaboration with SIGMA Chemnitz, we were able to identify the most suitable IT solution.“*

*Eddy Steier, IT system administrator at HYGIENE Oederan Produktionsgesellschaft mbH*
