About SIGMA

The SIGMA Chemnitz GmbH parent company is an experienced system house and has been offering a wide range of professional services in the fields of information technology, management and organization since 1990. The group of companies has had ERP experience since 1993. SIGMA Software und Consulting GmbH has been maintaining an intensive partnership with SAP in the field of medium-sized business solutions since 2007. All our consultants, developers and sales staff are certified by SAP and continuously undergo extensive training. We love SAP Business One!

About API Restauration

In the field of communal catering, API Restauration is the fourth largest player in the market in France. The company is active in various business areas of community catering and employs more than 7,200 people. API operates about fifty catering centres in France and five abroad, including four in Germany, producing more than 300,000 meals per day. API Restauration's customers include companies, educational institutions, daycare centres, retirement homes, hospitals and healthcare facilities.

French gastronomy chain decided to use SAP Business One

Decision for SAP Business One Cloud

With the French company API Restauration, SIGMA Software und Consulting GmbH was able to inspire an international client to use the SAP Business One software.

The gastronomy company, which operates in several countries, will implement its financial accounting for three clients by using the ERP software SAP Business One via a cloud solution in future.

This is what our customer says...

„We are firmly convinced that we have found a modern and future-oriented software in SAP Business One. Using it as a cloud service will increase our efficiency even more.“

Matthias Kremer, Corporate Controller
