### About SIGMA

The SIGMA Chemnitz GmbH parent company is an experienced system house and has been offering a wide range of professional services in the fields of information technology, management and organization since 1990. The group of companies has had ERP experience since 1993. SIGMA Software und Consulting GmbH has been maintaining an intensive partnership with SAP in the field of medium-sized business solutions since 2007. All our consultants, developers and sales are certified by SAP and are regularly attended to further training courses. We love SAP Business One!

### About ELBESTAHL

ELBESTAHL Stahl- und Metallhandel GmbH can look back on a history of more than 20 years. The Dresden-based, globally active medium-sized company specialises in metal trading, mechanical engineering, component manufacturing and engineering services.

## Implementation of SAP Business One Cloud Solution

 [www.elbestahl.eu](http://www.elbestahl.eu)

### Initial situation

The decision for SAP Business One as ERP system was made much earlier. During his studies, the managing director of ELBESTAHL Stahl- und Metallhandel GmbH Mathias Gehmlich dealt with ERP systems, including SAP Business One, in the course of his thesis project. Due to the customer-side ERP competence, concrete ideas were expressed and various work steps were also carried out by the client himself.

### SAP Business One hardware or cloud?

ELBESTAHL made a conscious decision in favour of the SAP Business One Cloud solution. There are no investment costs for hardware nor relevant hardware know-how is not required. There is also no need to worry about data backup and data management, and there are no charges for software updates. This is all taken care of as a full service by the cloud space provider Cloudiax.

### Financial Management Module provides the basis for Financial Accounting within SAP Business One

SIGMA carried out a basic initialisation as well as the design of the layout of the print forms. Due to the already integrated SAP Business One module Financial Management, it is possible to handle the financial accounting completely via SAP Business One in the future. For this purpose, SIGMA provided individual consultancy for financial accounting.

Since the managing director of ELBESTAHL Stahl- und Metallhandel GmbH is convinced of SAP Business One as an ERP system for medium-sized businesses, he is already planning to introduce Business One for another company.

## ***This is what our customer says...***

*„With SAP Business One as a cloud solution, we save costs and time. In addition, SAP Business One offers us the possibility to react flexibly to changing requirements. SIGMA continues to support us with its excellent ERP know-how in the future.“*

*Mathias Gehmlich, Managing Director of ELBESTAHL Stahl- und Metallhandel GmbH*
