## About SIGMA

As a reputable system house in Saxony SIGMA Chemnitz GmbH operates as system integrator and partner of well-known Providers in the IT sector. Our over 80 employees at the Chemnitz and Dresden sites form a competent team at the location Chemnitz. With expertise, competence and almost 30 years of experience we offer our customers reliable and powerful

## About INFOR

Infor is one of the largest manufacturers of business software for the manufacturing and wholesale industries. With 41 subsidiaries and around 90,000 customers, the company has a global presence. Germany plays an important role for Infor. Several development centers are located here (e.g.: in Karlsruhe, Breisach, Stuttgart and Leipzig). Infor sets itself the goal of offering customers the best possible software experience at a lower total cost of ownership.

## About INFOR LN

Infor LN is one of the leading ERP solutions. The software provides best-in-class and sophisticated capabilities in finance, supply chain, manufacturing, project management, and service. Infor is used by over 4,500 companies worldwide.

## The solution for your individual software requirements

We develop our own **applications and apps based on Microsoft**. We are the development specialist for **Enterprise Resource Planning Business Software** in the SAP and the Infor field as well. In addition to our individual **MES** and the **AutoID Middleware** software engineering for the production and manufacturing industry, we also offer customized development services based on Embedded Linux, Windows Embedded and Android for **embedded systems**.

SIGMA is your experienced partner for software and consulting. Our software development team is composed of experienced specialists with **many years of project experience and competency** in state-of-the-art technology.
