The solution for internal interaction and communication

As an Infor LN expert, we support you in the implementation of Infor Mingle - a comprehensive **platform for collaboration, business process optimization, and context-related analytics**. Infor Mingle is embedded into well-known systems like **ERP, Supply Chain Management (SCM), Human Capital Management (HCM) and Enterprise Asset Management (EAM)**. Thus, employees can communicate and cooperate across all corporate departments.

As on Twitter or Facebook, Infor Mingle makes it possible to follow colleagues, equipment, or processes that are relevant for their own work. **Information, such as documents, plans / schemes / budgets, photos and videos**, is recorded in a centralized manner and later assigned to the appropriate activity. This is necessary to guarantee quick access on demand at any time.

About SIGMA

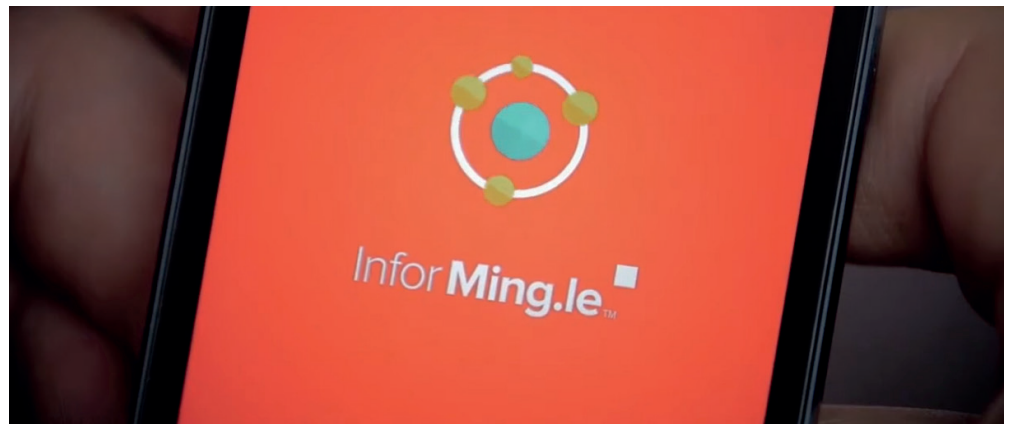

As a reputable system house in Saxony SIGMA Chemnitz GmbH operates as system integrator and partner of well-known Providers in the IT sector. Our over 80 employees at the Chemnitz and Dresden sites form a competent team at the location Chemnitz. With expertise, competence and almost 30 years of experience we offer our customers reliable and powerful solutions.

About INFOR

Infor is one of the largest manufacturers of business software for the manufacturing and wholesale industries. With 41 subsidiaries and about 90,000 customers, the company has a global position. Germany plays an important role for Infor. Several development centers are located here development centers (e.g. in Karlsruhe, Breisach, Stuttgart and Leipzig). Infor sets itself with the goal of providing customers with the best possible software experience at lower total cost of ownership.

About INFOR LN

Infor LN is one of the leading ERP solutions. The software provides best-in-class and sophisticated functionality in the areas of finance, supply chain, manufacturing, project management, and service. Infor is used by over 4,500 companies worldwide.

Infor Mingle provides your company with a central **platform for smart organization of internal procedures and communication** among the involved personnel. For this function, you can connect Infor Mingle with other Infor products, such as Infor LN or Infor IDM without any difficulty; the system provides quick access to different information. Employees can communicate challenges easily and in context.

Cross-linking the Infor products makes it possible to monitor the business processes in the company in everyday operations. The system can generate **context-related content as a task or message in an automated manner** and distribute it to the employees. Tasks and messages may also include links to drill back to other applications. The user can open the order from the task immediately in Infor LN via the drill-back functionality. Another feature is the home page as a personalized start page. Employees receive essential data about daily operations and warning messages at a glance through pre-configured or customized widgets. Using the widgets, the user can directly jump to different applications.

Advantages

- Analysis of personalized user data
- Automated information and warnings
- Personalized start page
- Single Sign On across an application
- Multi-system collaboration
